About me

Hi, I'm Memphis!

I help small businesses (and sole proprietors!) who are struggling to get a handle on their financial picture. They're tired of being stuck, tired of dealing with "unprofessional professionals" who deliver little in the way of results or even worse, create messes rather than clean them up!

I'm not just your bookkeeper, accountant, or tax guy. I'm your partner in financial strategy, helping you formulate and execute your business goals.

I donate a portion of my profits yearly to Ocean Conservation and Performing Animal Welfare Society. Feel free to reach out and request proof. Work with me to make the world more sustainable for ALL living things!
